 **INNOVATIVE
POWER, INC.**

Performance, Quality, Service, and Value

Innovative Power, Inc. (IPI), is a member of the Datronix, Ltd, family of companies, which also includes Datatronic Distribution, Inc. (DDI), and Datatronics Romoland, Inc. (DRI). IPI, DRI and DDI are all located in Southern California in modern industrial facilities with staffs of highly trained electronics engineers, application specialists and technicians.

The Datronix family of companies and its brands provide global leadership in the development of innovative magnetics technologies and products. IPI, DRI and DDI support their customers with world class magnetic component manufacturing, total quality management, responsive service and superior value.

Product Lines IPI and its predecessor company Cal Coil Magnetics have been in operation since 1954. IPI specializes in heavy-duty, high-reliability standard and custom magnetic components for applications in many diverse industries. The company's product lines include:

- High Voltage Coils
- Self-Supporting Coils
- Toroidal Transformers
- Three-Phase Transformers
- 60Hz Step-Down Transformers
- 400Hz Transformers
- Ferro Resonant
- Vibratory Magnets
- LVDT Transformers
- Fluid Sensing Coils
- Power Line Filters
- Power Inductors
- Audio Transformers
- Isolation Transformers
- Distribution Transformers
- Switching Transformers
- Flyback Transformers
- Current Sense Transformers
- Solenoids
- Pick Up Coils
- Auto Transformers

Engineering IPI specializes in providing quick-turn around engineering and production services on complex wound magnetic devices. The design and applications engineering team at IPI brings decades of design experience, speeding customers from the initial design to prototype to testing to full production of finished components in volume.

From heavy-duty power transformers for large turbines producing electric power to miniature transformers for commercial audio systems, there is an advanced magnetic components solution available from IPI. The company is also well-known for our expertise in rugged electronics operating environments and mission-critical applications.

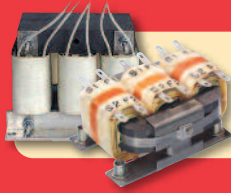

Manufacturing IPI manufactures some of the world's largest magnetic component coils for high voltage applications. For these products, IPI has designed its own custom coil winding equipment and developed its own unique processes to provide components of the highest quality.

Perfect Layer Coil Winding equipment provides the ultimate in magnetic coil winding precision for superior performance. Advantages include: max turns per layer, highest power for any given cross-sectional area, lowest DCR, max inductance, lowest leakage inductance, and consistent voltage potential layer-to-layer and winding-to-winding.

Many of these high voltage coils are encapsulated by IPI's specialized vacuum pressure impregnation equipment, which provides complete insulation to humidity. Corona effect is minimized through the elimination of voids inside the encapsulation.

Industry Standards & Certifications IPI, DDI and DRI are qualified and/or certified to some of the electronics industry's most demanding performance, safety and quality standards:

- ISO 9001:2015
- MIL-STD-981
- MIL-PRF-27
- MIL-PRF 21038
- NASA Space
- J-STD-001
- UL E332078
- UL Insulation Systems to 200°C
- CE
-  Systems 130-240°C

Three-Phase Transformers

- 0.1 - 50KVA, .1mV to 50KV
- Military, Commercial Telecom

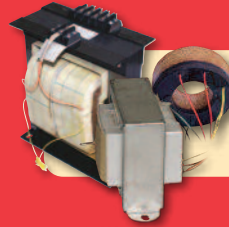

High Voltage

- 400V-50KV, Vacuum/Pressure Impregnated, 0.25 micron/100 PSI
- Space, Satellite, Telecom

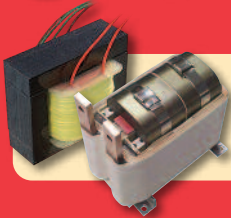

50/60Hz Step/Control Transformers

- 120 - 575V, Any Secondary Voltage
- Industrial

High Voltage Control Transformers

- 1.5KV - 5KV Transmitter Transformer
- TV, Commercial, Industrial

400Hz Transformers/Inductors Resonators

- 24 - 500V Systems | Aircraft, Industrial

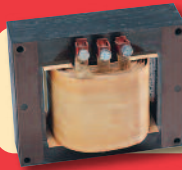

Toroidal

- 1 - 10k turns, 0.25" - 10" Diameter, Power Supply
- Commercial, Aerospace, Industrial

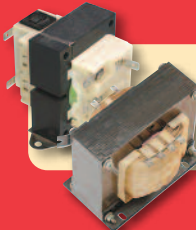

Ferro Resonant

- 5VA - 5KVA
- Ballast, Lighting, Welding

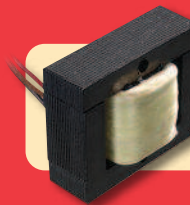

Auto-Transformer

- Line Conditioning, Phase Control, Buck, Boost
- Industrial

Distribution Transformers

- 12 - 220V 50/60Hz, Multi Tap Secondary, MG5169acr2
- Industrial, Commercial

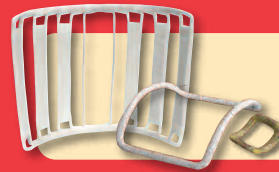

Power Inductors/Filters

- 0.1 - 500A, Amorphous, Ferrite, E-core
- Industrial, Commercial

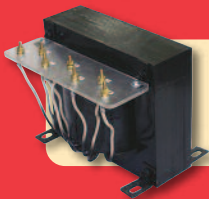

Switching Transformers

- 10 - 100kHz, Flybacks
- Industrial, Aerospace

Fluid Sensing Coils

- Liquid Flow Meters, Pickup Sensing
- Industrial, Commercial

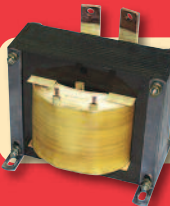

High Power Step-Down Transformers

- 120-208-220-460-575V, Single/Three Phase, Delta, Star, Y
- Heavy Industrial

Audio Transformers

- Main, Filament, 1800V, 2400V, 3600V, 2KW - 10KW
- Entertainment

60Hz High Current Heater Transformers

- 0.5V 500A Heating Element
- Commercial, Industrial

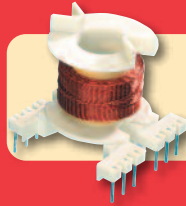

Current Sense

- E Laminate or Toroidal, 1/4" - 3", 1A - 10KA
- Heavy Industrial, Commercial

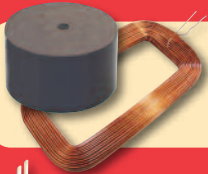

Self-Supporting Pickup Coils

- E-beam
- Microscopes, Guitar Pickups, Scientific, Telecom

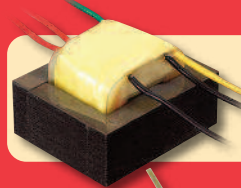

Flyback Transformers

- 1mA - 1A, Low Voltage
- Industrial, Aerospace

MagLev Coils

- Vehicle Propulsion/Levitation
- High Speed Rail

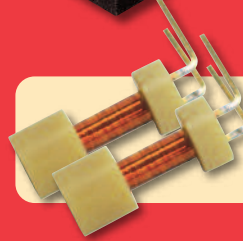

Isolation Transformers

- 1VA - 3KVA
- Industrial

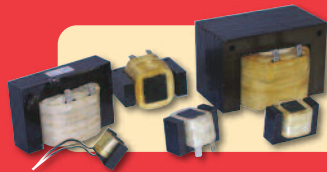

Solenoids

- 24V - 600V, 60 - 400Hz
- Automotive, EVehicles

LVDT Coils

- Position Sensing, Ultra High Resolution
- Aerospace, Industrial

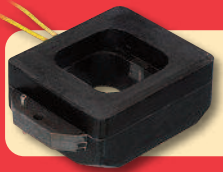

Vibrator Magnets

- 24V - 575Vac
- Feeder Bowls, Automotive, Industrial

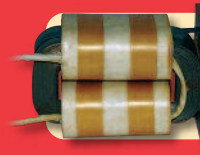

Common Mode Chokes

- 0.1mA - 1,000A
- Industrial, Military, EVehicles, Commercial

Aerospace Speed Sensor

- 12V @ 5,000RPM
- Aerospace, Industrial

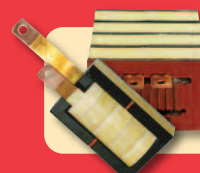

DC to DC High Power Transformers

- 2400VA, 50/60HZ
- Industrial, Military, Aerospace

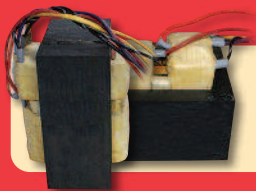

Medical Application Coils

- Odd Sizes, Perfect Wound Coils
- Medical, Industrial

High Freq. Battery Charger Transformers

- 1 - 370A, 10 - 90Khz
- Industrial

Lighting Ballast

- 50VA - 2500VA, 120V - 575V
- Industrial, Aerospace, Commercial

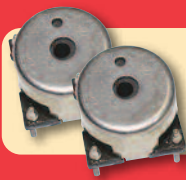

Balun, Couplers, Splitters

- 70db - 200db, 40Khz - 800Mhz
- Antennas, Military, Telecom

Implantable Coils

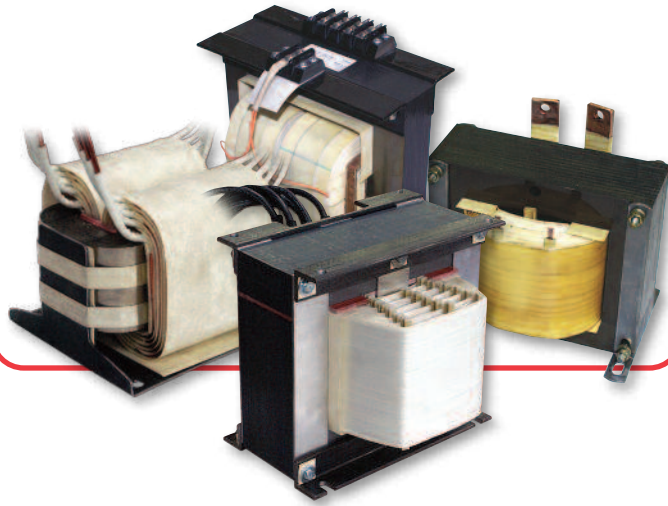

- Low Voltage, Low Current, High Frequency
- Nerve Repair, Medical

Shielded Inductors/Transformers

- 1/4-1", 10Khz - 100kHz
- Industrial, Aerospace, Space
